STRUGGLE NEAR SOISSONS YET IS UNDECIDED

German Attempts to Retake Lost Positions Have Not Succeeded.

OTHERS QUIET

Terrific Storms Stop Fighting in Flanders—Alone Also Resting.

Paris, Jan. 13.— German reinforcements sent to the south positions recently won by the French northeast of Soissons have put in doubt the result of the great battle fought there at that point. The official communication issued today that the fighting is going on night and day, with first one side and then the other having the advantage.

Yesterday the allies were obliged to give ground to the east of Spur 132, the spur of Soissons, and a series of villages in danger of losing possession of the village of Cruxy, but to-day they checked the German rush and the westernmost village of Cruxy, where the village of Moncel is in hand again.

On the Crouy-Croix front the allies launched a counter-attack which drove the Germans back, and prevented their advance. But could not advance beyond Cruxy itself.

Solomons is the point where the German line has turned toward Paris, and any German attempt to break through there would naturally be the goal of the Allies. The French had the advantage in numbers at first, but were soon driven off by the German regiments, which checked the advance. Now, it is understood, the French are receiving reinforcements, and a general attack is expected for several days.

SANDSTORMS IN FLANDERS.

Except at Solomons, the operations at the front of the two powers have been relatively unimportant. The weather is exceptionally bad, and in Flanders great sandstorms have been completely precluding fighting of any sort. The French troops gained further success yesterday, and established themselves fifty yards from the German trench. The German line was confined to commanding. The snowstorms in the Vosges and in parts of Alsace have stopped.

Now the French troops have remained inactive in Alsace for several days, and no fighting there yesterday or to-day by the military authorities.

It is reported that several thousand men of the German forces have been taken prisoner, and that the rivers have run over their banks in consequence of the heavy rains, and many of them have been formed into lakes. There are several feet of water in the German trenches, and they have been covered over by thousands of planks, roofs over the whole length for protection.

The operations are suspended, and the weather is so bad that the roads are impassable, and the railroads are being repaired. The two nations are similarly phrased, that

the French are resting, and the Germans are preparing to prove the leakage of news of French successes in Alsace. For three days nobody has been able to get through in diplomatic style to Berlin. All letters are opened, and the wounded from the latest fighting are treated weakly, lest they should be known to Germany as the news of French victories.

The news from the railway in the towns of Alsace is much more serious than was supposed. On the account of the destruction of the railroads, it is impossible to get supplies to the Germans to execute repairs, and this is preventing the arrival of very necessary German reinforcements.

SETTLE HERE

Plan to Bring Discharged Soldiers After War Ends

London, Jan. 13.— One plan for dealing with the large number of discharged soldiers after the war, which is understood will be discussed with the Dominion Government by Commissioner Lamb, is to bring them to Canada, where he is now on his way to Canada, is a scheme for their settlement on the land on a scale of 100,000 acres, to be given to the Imperial Government.

The need of more ambulances in Canada is urged by Leo Scott, of Ottawa, who has just returned from a trip to the front in France. He found the ambulances were taken over for the use of the British Ambulance Committee.

Mr. Scott, who is president of Canadian Ambulance, urges that Canadian plans to contribute one each, as he deems that these ambulances are needed to care for the wounded, sick, and dying and other things supplied by the Government. He found many cases of helplessness among the French. His demand for ambulances will increase with the heavy fighting now going on in Alsace.

FULTON

The January thaw has spoiled the soil and left the roads in bad condition, with bare spots and heavy banks.

Mr. William Lynch, the pastor to the church of the Holy Cross, Mr. and Mrs. Arthur Nelson, of Frankford, He was around all day, and at about 10:30 o'clock called his daughter, and they phoned for a physician, but he did not arrive until after he had arrived. He was laid at rest on Monday in the Trinity Church burying ground, Rev. Mr. W. H. Marshall officiating.

Mr. and Mrs. E. Halsted visited Mr. and Mrs. Lewis Nelson on Monday. The weather was very cold, making great difficulty in the evenings skating.

OWES HER LIFE TO "FRUIT-A-TIVES"

Cured Both Stomach Trouble and Headaches

Palmerton, Oct. 26, 1914. "I really believe that I owe my life to 'Fruit-a-tives.'

"I was ill and under the care of physicians and have been paying doctor's bills. I was so ill that the street often asked me if I thought I could get along without help. The terrible headaches from the tension headaches nearly drove me wild. Some time ago I got a box of 'Fruit-a-tives' and my husband was delighted and advised a continuation of their use."

"I am feeling fine, and a physician meeting me on the street, noticed my improved appearance. He said, 'How do you live?' I said, 'I take 'Fruit-a-tives.' He said, 'Well, if 'Fruit-a-tives' are making you look so well go on taking them.'

VON BERTHOLD QUILTS OFFICE AS MINISTER

Austrian Whose Note to Servia Caused the Great War Has Resigned.

SOP TO HUNGARY

Whose Diplomat, Baron Stephan Burian Von Rajecz, Succedes.

London, Jan. 13.— Count Leopold von Berthold, the Austro-Hungarian Foreign Minister, has resigned, and Baron Stephan Burian, Minister of the Royal Court, in the Hungarian Cabinet, has succeeded him.

The information reaches London in a despatch from Berlin, giving a communication from the German Official Press Bureau, and in a Vienna despatch quoting a statement from the Vienna government.

"The chief of these is the desire

"of finding a way out of the

"present difficulties."

The correspondent adds:

"'An animated discussion is

"going on in Vienna as to

"what the best course is to

"take in view of the

"present difficulties.'

The announcement of the shake-up

in the Austro-Hungarian foreign

relations is a complete surprise to

the public, and it is entirely

impossible for the Germans to execute

repairs, and this is preventing the

arrival of very necessary German

reinforcements.

Extraordinary precautions are being

taken by the Germans to prevent the

leakage of news of French successes

in Alsace. For three days nobody

has been able to get through in

diplomatic style to Berlin. All

letters are opened, and the wounded

from the latest fighting are treated

weakly, lest they should be known

to Germany as the news of French

victories.

The news from the railway in the

towns of Alsace is much more serious

than was supposed. On the account

of the destruction of the railroads,

it is impossible to get supplies to

the Germans to execute repairs,

and this is preventing the arrival

of very necessary German reinforce-

ments.
